

Summary of the Results

Summary of the Results in 2009

The sales (income) and number of persons working at the location of establishment¹⁾ etc. on the service industries²⁾ in 2009 were as follows.

- 1) Persons working at the location of establishment include all persons who are engaged in the business of the establishment at the end of business day of the month, excluding dispatched or subcontracted employees to separately operated establishment, but including those who work as dispatched or subcontracted employees from separately operated establishment. The same shall apply hereinafter.
- 2) Service industries covered the 9 industries classified in the following groups designated by the Japan Standard Industrial Classification (Rev.12, November 2007): “Information and communications”, “Transport and postal activities”, “Real estate and goods rental and leasing”, “Scientific research, professional and technical services”, “Accommodations, eating and drinking services”, “Living-related and personal services and amusement services”, “Education, learning support”, “Medical, health care and welfare” and “Services, n.e.c.”. The same shall apply hereinafter. Please refer to the appendix 5 for details of industry coverage.

Sales (Income, annual total)	290.5 trillion yen
Sales (Income) per Establishment (Annual total)	103.6 million yen
Number of Persons Working at the Location of Establishment (Annual average)	26.4 million persons
Sales (Income) per Persons Working at the Location of Establishment (Annual total)	11.0 million yen

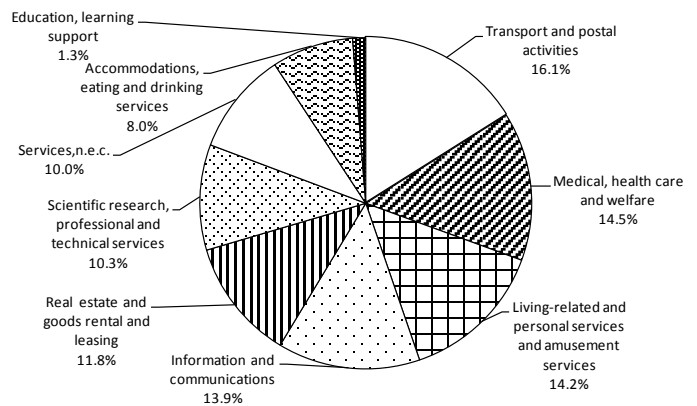

1 Sales (Income)

Total sales (income) of service industries in 2009 was 290.5 trillion yen.

When we look at the composition of the previously mentioned industries, we find that “Transport and postal activities” was the highest at 16.1% (46.7 trillion yen) and “Education, learning support” was the lowest at 1.3% (3.7 trillion yen).

Total sales (income) of service industries in FY2009 was 289.1 trillion yen.

Figure 1 Composition of Sales (Income) by Industry

2 Sales (Income) per Establishment

Total sales (income) per establishment for the service industries in 2009 was 103.6 million yen.

By industry, “Information and communications” with 667.8 million yen was the highest among the 9 industries.

Total sales (income) per establishment for the service industries in FY2009 was 103.1 million yen.

Table 1 Sales (Income) and Sales (Income) per Establishment by Industry

	2009			FY2009		
	Sales (Income) (million yen)	Composition ratio (%)	Sales (Income) per establishment (million yen)	Sales (Income) (million yen)	Composition ratio (%)	Sales (Income) per establishment (million yen)
Service industry	290,535,703	100.0	103.59	289,144,184	100.0	103.10
Information and communications	40,347,071	13.9	667.78	39,874,395	13.8	661.81
Transport and postal activities	46,870,392	16.1	356.67	46,486,939	16.1	355.32
Real estate and goods rental and leasing	34,293,609	11.8	97.95	33,774,150	11.7	96.46
Scientific research, professional and technical services	29,921,906	10.3	136.67	29,782,962	10.3	135.73
Accommodations, eating and drinking services	23,124,608	8.0	29.34	23,103,056	8.0	29.31
Living-related and personal services and amusement services	41,140,594	14.2	78.09	41,047,444	14.2	77.88
Education, learning support	3,692,708	1.3	21.67	3,659,639	1.3	21.50
Medical, health care and welfare	42,189,024	14.5	120.61	42,481,390	14.7	121.44
Services,n.e.c.	29,155,791	10.0	139.48	28,934,209	10.0	138.65

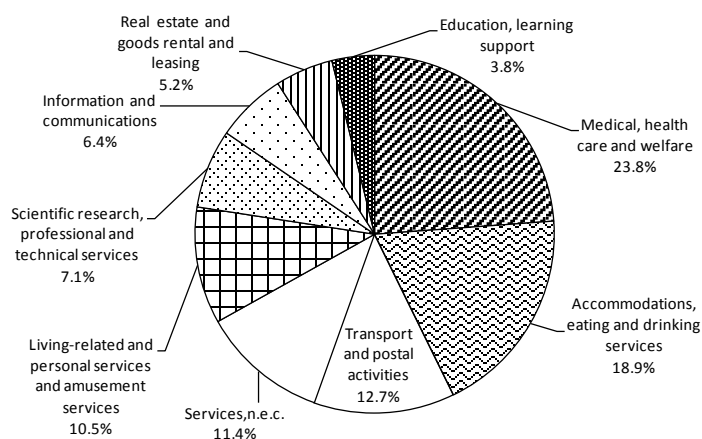

3 Number of Persons Working at the Location of Establishment

The number of persons working at the location of establishment (annual average) was 26.4 million persons in 2009.

When we look at the composition of industries, “Medical, health care and welfare” (23.8%, 6.3 million persons) was the highest, followed by “Accommodations, eating and drinking services” (18.9%, 5.0 million persons). The two industries accounted for nearly 40% of the total.

The number of persons working at the location of establishment (fiscal year average) was 26.4 million persons in FY2009.
