31 March 2007

Table 5. Training Courses implemented by the Project in 2006FY

Comparing before and after the training, the understanding level of the trainees of the training courses implemented by the Project in 2006FY was improved 43% in average.

No.	Course Title	Average understanding level (0-100)			Note
		Post-course (B)	Post-course (B)	Improve Rate (%) (B/A)	
1	Introduction to Official Statistics (Group 3)	41.2	67.6	64.1%	
2	Introduction to Official Statistics (Group 4)	50.2	73.0	45.4%	
3	Statistical Survey Design (Data Processing Design)	30.7	53.6	74.6%	
4	Statistical Survey Design (Sampling Design)	41.7	56.5	35.5%	
5	Statistical Survey Design (Quality Control)	56.0	67.9	21.3%	
6	Statistical Analysis (Group 2)	45.4	70.2	54.6%	
7	Statistical Analysis (Group 3)	45.4	74.1	63.2%	
8	Dissemination and Use of Statistics (Group 2)	22.7	49.7	118.9%	
9	Dissemination and Use of Statistics (Group 3)	24.1	51.1	112.0%	
10	Use of Statistical Survey Results (Group 2)	70.1	80.7	15.1%	
11	Use of Statistical Survey Results (Group 3)	61.3	81.8	33.4%	
12	Use of Local Area Statistics (Group 2)	61.2	81.9	33.8%	
13	Use of Local Area Statistics (Group 3)	60.1	86.8	44.4%	
14	Use of Local Area Statistics (Group 4)	64.5	80.0	24.0%	
15	Use of Local Area Statistics (Group 5)	55.3	70.7	27.8%	
	Average	48.7	69.7	43.1%	Calculated with simple arithmetic mean of 15 courses

The understanding level of the trainees was measured by tests or self-evaluation questionnaires which were conducted before and after the training.
