

# Abstract

## Challenges facing of CSO in Myanmar (Myanmar)

Challenges facing of CSO in Myanmar

1. CSO should need to amend statistical Act to replace in 1952 Statistical Act.
2. National Statistical Coordination Board should need to be formed as new organization to implement better National Statistical System.
3. To capture of private sector data in timely and regularly.
4. Need to fulfill the data gaps such as environmental statistics and the technology.
5. Frequency of censuses and surveys (estimation in data gaps ) to know about the real situation of socio- economic condition of the country.
6. Need of human resources, financial and technical support and ICT.
7. Consistency in data from different sources.
8. Timeliness of data and reports.
9. Plan for National Statistical Development strategy to over view on management system and monitoring and evaluation for statistical matters.
