FOREWORD

I have great pleasure in presenting this National Profile containing the detailed statistical tables produced from the Cambodia Inter-censal Population Survey (CIPS), conducted by the National Institute of Statistics (NIS) with 3 March 2013 as the reference date. This survey was taken between two censuses, the 2008 census and the proposed 2018 census. This survey (CIPS 2013) corresponds to CIPS 2004 which was conducted after the 1998 Population Census.

From the point of view of the sample size (about 28,650 households in 955 Enumeration Areas which were the primary sampling units), CIPS 2013 is bigger than CIPS 2004. Moreover CIPS 2013 was designed to provide data for each of the 24 provinces of Cambodia unlike the previous survey which grouped smaller provinces for presenting the results. The database created by the present survey could be useful on an interim basis until the next population census is conducted in 2018.

CIPS 2013 is a follow-up of the successful 2008 Population Census, whose results were widely disseminated within the Ministries and among a large body of data users and the public, and the final results of CIPS 2013 was analyzed and released in the General Report on 25 November 2013.

Furthermore, 13 in-depth analytical reports which analyze in more detail the results of CIPS 2013 have been published.

This National Profile presents a huge amount of very detailed statistical tables produced from the CIPS micro data. They are called Priority Tables and constitute the most essential part of CIPS results for current use and future reference.

More than a thousand staff members of the NIS and Provincial Planning Offices were trained for conducting the survey. Their services will be utilized to train in turn a large number of enumerators and supervisors who will be recruited for the next Census. CIPS 2013 may therefore be called the harbinger of the next Population Census in Cambodia due in the year 2018. The National Institute of Statistics emphasizes the importance of close collaboration with international development partners and national counterparts to ensure transfer of knowledge to improve analytical methodologies, and to plan and organize national reports. This emphasis will facilitate the long term sustainability of demographic analysis in the country.

On behalf of the Ministry of Planning and the CIPS's Executive Committee, I would like to extend my appreciation to express our deep sense of gratitude to the Royal Government of Cambodia led by **Samdech Akka Moha Sena Padei Techo HUN SEN**, Prime Minister for providing the constant support to the statistical activities, especially to CIPS 2013 which enabled very successful completion of the activities. I wish to place on record our gratitude to the Ministry of Interior, municipality, provincial governors and local authorities for good cooperation and facilitation. I also extend my sincere thanks to the development partners including the United Nations Population Fund (UNFPA) for supporting the whole process and technical assistance program with emphasis on capacity development. Thanks are due to Japan International Cooperation Agency (JICA) for providing technical assistance for mapping villages and Enumeration Areas (EAs), and for participating in analysis and dissemination of the results.

I appreciate the hard work put in by the staff of the NIS under the guidance and supervision of H.E Mrs. Hang Lina, Director General, NIS and the Provincial Planning Offices in making the survey success as well as in the preparation of this report. I wish to take this opportunity to thank all staff of the National Institute of Statistics as well as all survey field staff who took part and contributed to the success of the Cambodia Inter-censal Population Survey, 2013. We are also thankful to technical advisers for the survey: Mr. Nott Rama Rao, Dr. Gouranga Das Varma, Mr. Gregory Martin, Mr. Fumihiko Nishi, Mr. Akihiko Ito, and Mr. Akihito Yamauchi.

We are pleased to present to line-ministries, international agencies, non-government organizations, policy makers, programme implementers, development planners, and researchers this publication with a plethora of useful information. We hope to receive feedbacks and comments to improve our subsequent publications.

Chhay Than
Senior Minister
Minister of Planning

PREFACE

The The Cambodia Inter-censal Population Survey, 2013 was conducted not only to obtain the much-needed demographic data following the census, but also to serve as a means to train the staff of the NIS and Provincial Planning Offices in demographic data collection. We are happy to record that the survey achieved both objectives.

This report contains Priority Tables designated as such to present the most essential detailed statistical tables obtained from the individual data of CIPS 2013. In parallel, 13 kinds of very in-depth analytical reports on the results of the Survey have been prepared.

Our special thanks are due to H.E.Chhay Than, Honorable Senior Minister, Minister of Planning, Cambodia whose keen interest in the census and in the survey was always a source of inspiration and encouragement both to the national and international staff of the project.

We sincerely thank the United Nations Population Fund (UNFPA) for supporting the whole process of CIPS 2013 including resources and technical assistance programs with emphasis on capacity development. Thanks are due to Japan International Cooperation Agency (JICA) for providing technical assistance for mapping villages and Enumeration Area (EAs), and for participating in analysis and dissemination of the results.

The success of the survey was mainly due to the enthusiastic participation of a large number of staff in fieldwork, data processing and other survey activities. To every one of them our thanks are due. The UNFPA and JICA experts closely assisted the NIS and the provincial staff. We are thankful to all of them.

Outline of the Cambodia Inter-Censal Population Survey 2013

This report consists of “Part One” and “Part Two”, both containing the statistical tables based on the final counts of the Cambodian Inter-censal Population Survey 2013. Part One includes the tables for total, urban, and rural areas of Cambodia of all series of the priority tables except for the series C, while Part Two includes the tables of the series C.

1. Background

The process of formulating a national population policy has been greatly advancing in Cambodia through the availability of population census data and other demographic information. The conduct of the Cambodia Inter-censal Population Survey 2013 (CIPS) in March 2013 was an important step in the creation of a continuous flow of population data that enable Cambodia to prepare plans and programmes of development supported by strong databases. The reference time for CIPS 2013 was the midnight (00 hours) of March 3. It was planned to take place exactly in the middle of the two censuses held in 2008 and 2018. Unlike CIPS 2004, CIPS 2013 was designed to provide estimates up to the provincial level. The target population set for CIPS 2013 was the normal household population (regular households) of Cambodia. People living in institutions, such as hospitals, hostels, police barracks and prisons as well as homeless population were not covered in the survey.

2. Objectives of the Survey

The Cambodia Inter-censal Population Survey 2013 was conducted with the objective of providing information on the following characteristics of the population: Population size and distribution; sex, age and marital status; fertility and mortality; migration status; disabled population; literacy and educational level; employment and unemployment; housing and household amenities; other population and household information.

These fresh data enabled calculation and reliable projection of population size and growth, fertility level, mortality level, volume of migration and related details.

The survey was also intended to train the national staff in sampling, data collection, data processing, analysis and dissemination. The draft questionnaires for CIPS 2013 were more or less on the 2008 General Census pattern. Some modifications, however, were made by adding new questions and amending some of the old questions. Two types of questionnaires were used in CIPS 2013: Form A House List and Form B Household Questionnaire (see Appendix 2 and 3).

Form A was used to collect information on buildings containing one or more households during the preliminary round preceding the survey night (March 3, 2013). Form B which has five parts, was used for the survey enumeration in the period closely following the reference time.

3. Sampling

The sample design for the survey was a stratified two-stage sampling. The first stage units consisted of Enumeration Areas (EAs) as Primary Sampling Units (PSUs) and the second stage units were the households. The total sample sizes adopted to make reliable estimates at the provincial level were 955 EAs as Primary Sampling Units (PSUs) and 28,650 households as Secondary Sampling Units (SSUs). An EA is a compact unit within a village with about 90 to 100 households. The second stage of sampling was carried out by the supervisor prior to the start of the interviews in the EA. Thirty households were selected by systematic equal probability sampling from a list of households in the

EA (or a segment of the EA in the cases where a large EA was segmented and one segment was selected randomly). The selected EAs were located in 924 villages. See Appendix 1 for more details.

This sampling design assures that the survey provides reliable estimates separately for urban and rural areas at the national level, but that at the provincial level it provides reliable estimates only for the total population by sex. The sample fraction varied by stratum and data had to be weighted for proper estimation. The weights also served other purposes including adjustment for non-responses. Estimation was made for the total population including institutional, homeless etc. populations.

4. Organization of the Survey

The Director General of NIS served as the Director of CIPS 2013. The provincial planning directors of each of the 23 provinces and Phnom Penh Municipality served as Coordinators in their respective areas. About a hundred NIS Survey Coordinators were drawn from different divisions of NIS and allotted to provinces at the rate of about eight to nine villages per person. They then acted as technical advisors to all survey staff and were responsible for technical aspects of the survey in the allotted province. Their foremost tasks were to train the supervisors and the enumerators, supervise the fieldwork and ensure proper distribution of CIPS materials and collection of completed records.

The first preliminary work for the survey was mapping of the selected 955 EAs with technical assistance from Japan International Cooperation Agency (JICA). Trained NIS staff were deputed to draw sketch maps of villages and detailed EA maps.

At the enumeration stage, one enumerator was assigned to every selected EA, and normally the work of three enumerators was monitored and supervised by one supervisor. Enumerators and supervisors were drawn from the cadre of teachers and other civil servants. Preferably those residing within or near the selected villages were appointed by the provincial directors. In all, there were 955 enumerators and 318 supervisors busy in the field during early March 2013. The Senior Minister, Minister of Planning, Secretaries of State, and Under-Secretaries of State also supervised the field activities at a higher level.

A technical consultant appointed by UNFPA undertook a few short-term missions at appropriate stages to provide assistance in questionnaire design, training and overall guidance to the NIS, and to assist in the preparation of the tabulation plan and the reports. A sampling consultant provided guidance on sampling, particularly on estimation procedures and computation of sampling errors. A data processing consultant in his short-term missions gave training to the staff in data processing and guided and supervised the processing of CIPS results.

5. Training of Field Staff

The 100 NIS Survey Coordinators were first intensively trained at the NIS (November-December 2012) by senior officers on updating village/EA maps, sampling, house-listing, interviewing households and filling-in household questionnaires, and on concepts and definitions adopted. The Province Directors (with their Deputy Directors) were trained on CIPS at NIS for one week in January 2013, since they were expected to be closely involved in organizing the survey and making field visits to ensure that the survey was proceeding on track. The training of appointed enumerators and supervisors on all aspects of the survey, especially questionnaires and concepts (including practice), was conducted at the Provincial Headquarters by NIS Survey Coordinators assisted by the Provincial Directors/Deputy Directors for six days (19 to 23 February 2013).

6. Collection of Data and Supervision

For every selected EA, a field listing was organized in order to make a current and complete listing of households located within it. At the first step the enumerator updated the sketch map of the village and EA. Residential and partly residential buildings were numbered using stickers and marked on the map concerned by covering a prescribed path of travel in order to make sure that all buildings in which households resided were located.

During the primary operation of the survey (lasting five days from 26 February to 2 March, 2013) building/structures wholly or partly used for a residential purpose in the selected EAs (955 in all) were listed in the House List (Form A). After the listing operation was completed in an EA, a fixed sample size of 30 households was selected from the house list by the supervisor concerned. This selection was carried out systematically by computing an interval in each EA and choosing a random start. It was closely supervised by NIS Survey Coordinators to ensure correctness in the selection process.

During the main phase of the survey, the Household Questionnaire (Form B) was completed by the enumerator in each of the 30 sample households selected in his/her EA. Overall, the supervisory teams found that respondents were willingly answering the survey questions.

7. Data Processing

The completed records (Form A, Form B, Form I, Form II, Map, and other Forms) were systematically collected from the provinces by NIS Survey Coordinators on the due dates and submitted to the receptionist team at NIS. Training on editing and coding of filled-in forms was conducted for senior staff, who in turn trained other editors and coders. The purpose of the editing process was to remove matters of obvious inconsistency, incorrectness and incompleteness, and to improve the quality of data collected.

In order to capture the data recorded on Form A (House List), Form B (Household Questionnaire) and Form II (Enumerator's Summary), three separate data entry applications using CSPro software package were made. CSPro package was used for tabulation as well. The data entry section consisted of 14 keyboard operators working under two supervisors. They were thoroughly trained on data entry procedures and CSPro data entry software in the third week of March 2013.

8. Tabulation and Analysis

At the first instance a quick tabulation of population totals based on Enumerator's Summary was made. This was checked again with reference to the results from the processing of Form B (Household Questionnaire). The Provisional Report was released on 15 August 2013 presenting the population totals, with a brief analysis, in respect of Cambodia and its provinces so as to provide advanced information about the latest estimate of the size of population at the national and sub-national levels.

It was followed by the General Report released on 25 November 2013, touching various aspects of the country's population.

About 78 basic priority tables, which NIS had decided in consultation with data users, were tabulated (see Appendix 4) mostly for both national and provincial levels. The provincial level tables are only for the whole province and not separately for rural and urban areas due to smallness of the sample size. These tables cover most of the topics included in the CIPS 2013 questionnaires, and their cross classifications should satisfy most of the requirements of all sections of data users. Other tables may be produced in the course of in-depth analysis and in the framework of secondary use of micro data of official statistics in future. In parallel with such work, various statistical maps were drawn for presentation and analysis of the results.

In-depth analysis by the NIS analysis team with technical assistance by UNFPA and JICA includes the following topics: (i) Fertility and mortality, (ii) Spatial Distribution and Growth of Population, (iii) Sex and age structure, (iv) Nuptiality, (v) Disability, (vi) Migration, (vii) Literacy and educational attainment, (viii) Economic activity and employment, (ix) Housing and household amenities, (x) Family and Household, (xi) Population Projections, (xii) Women in Cambodia, and (xiii) Population Aging in Cambodia. A separate report on each topic is being prepared at the time of writing this report, and a workshop may be held to explain the results and demonstrate the use of CIPS results.

For the entire list of publications, see Appendix 5.

9. Publication and Dissemination of the Results

As mentioned earlier, the Provisional Report was released on 15 August 2013, and the General Report on 25 November 2013.

In-depth analytical reports are being compiled and published, and the National Profile containing voluminous Priority Tables will be published toward the end of March 2014. Off-line electronic dissemination products will be mainly in the form of CD-ROM. The project plans to produce a variety of electronic dissemination products based on CD ROMs. These include: a Table Retrieval System, a Community Profile System and a thematic mapping application. Census Info will also be used as a dissemination tool. The NIS maintains a web site (www.nis.gov.kh) for providing information from censuses and various surveys, periodical publications, etc. The salient results of CIPS 2013 are being put on the web site. Seminars for the presentation of the survey results and workshops to train planners in the line Ministries and other data users may be conducted in Phnom Penh and provinces in due course.

10. Quality Assurance

Adequate steps were taken to ensure quality of data at every stage of the Survey. For quality assurance in field work, the importance of collecting quality information was stressed in the training classes for enumerators and supervisors. The need to collect accurate data by gender was also emphasized. There were field supervisors who closely checked the work of enumerators under them. The data processing division initially carried out manual coding and editing of filled-in forms. Computer editing was also carried out to produce clean data sets freed of errors and ready for tabulation. QA was maintained in production of tables also so as to maintain timeliness and security of the tables. In the dissemination of the survey results, accessibility, relevance and user satisfaction will be ensured.

11. Limitations of the Survey

The various estimates presented in this report were derived from a sample of the population. As in any such survey, these estimates are subject to both sampling and non-sampling errors. Although the CIPS 2013 sample was chosen at random, the people who took part in the survey might not necessarily be a representative cross-section of the total population. Like all sample surveys the results of the present survey are estimates of the corresponding figures for the whole population and these results might vary from the true values of the population. Nevertheless the demographic, social and economic indicators produced are broadly comparable with earlier census and survey results so as to serve as a measure of change over time, useful for planning and monitoring.

Terms and Classifications

Terms are basically placed in the order of questions in the Forms

(Form A. House List)

Household

A household is a group of persons who commonly live together and usually take their meals from a common kitchen. A household consists of related persons by blood, of unrelated persons or of both. A cook or a servant living in the house of his/her employer and taking the employer's, he/she is part of that household.

If a group of persons who are unrelated to each other live in a building, but do not have their meals from a common kitchen, each such person is treated as a separate Normal Household. The important link in finding out whether there is a household or not, is the existence of a common kitchen.

Examples of households of unrelated persons are those in boarding houses, hostels, residential hotels, rescue homes, jails, pagodas, etc. and are called Institutional Households. All institutional households and homeless households were excluded in CIPS 2013.

Head of Household

The head of household is a person who is recognized as such in the household. He or she is generally the person who bears the chief responsibility for the management of the household and takes decisions on behalf of the household. In the case of an absentee *de jure* "Head", the person on whom the responsibility of the managing the affairs of the household falls at the time of house-listing, is regarded as the Head.

Number of Persons Usually Living in the Household

Casual visitors are excluded as they should be considered at their respective places of normal residence. Persons like household helpers, visitors or guests living and having their meals with the family are also considered as usual members of the household if they have been living with the household for six months or more, or if they have no other place of residence. Usual residents absent for six months or more are excluded from the household.

Building/structure

A building is generally a single structure on the ground. It is covered by a roof and usually enclosed within external walls or with common dividing walls with adjacent buildings. In some areas the very nature of construction of houses is such that there may not be any wall. For example a conical roof almost touches the ground and an entrance is also provided and there will not be any wall as such. Such structures should be treated as buildings. Sometimes a building is made up of more than one component unit which are used or likely to be used as dwellings (residences) or as establishments such as shops, business houses, offices, factories, workshops, work sheds, schools, places of entertainment and places of worship, stores, animal sheds, etc. It is also possible that buildings which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence, etc.

Sometimes a series of different buildings may be found along the street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and likely to have been built at different time and owned by different persons. In such cases though the whole structure with all the adjoining units apparently appears to be one building, each portion should be treated as a separate building. On the other hand, in case of multi-storied flat, which is occupied by different households, the entire structure is treated as one building.

If there are more than one structure within an enclosed or open compound (premises) belonging to a household, for example, the main house, animal sheds, sitting places, garages etc., or the main residence unit for living and dining, and other units used e.g. for cooking, athletics etc. are treated as only one building.

Floating houses or boats near the bank of a river which are fixed and do not move from place to place are treated as buildings/structures, and so are caves, big steel containers or un-serviceable buses which are fixed to the ground.

Buildings/structures which are wholly used for non-residential purposes are not enumerated, nor are vacant buildings, locked buildings, or buildings under construction with no households.

Dwelling

A dwelling is a room or a set of rooms in a building/structure in which a household resides.

Household

A household is a group of persons who commonly live together and usually take their meals from a common kitchen. A household consists of related persons by blood, of unrelated persons or of both. A cook or a servant living in the house of his/her employer and taking the employer's meals, he/she is part of that household.

If a group of persons who are unrelated to each other live in a building, but do not have their meals from a common kitchen, each such person is treated as a separate Normal Household. The important link in finding out whether there is a household or not, is the existence of a common kitchen. Examples of households of unrelated persons are those in boarding houses, hostels, residential hotels, rescue homes, jails, pagodas, etc. and are called Institutional Households. All institutional households and homeless households were excluded in CIPS 2013.

Predominant Construction Material of Building/ Structure

(a) Wall Material

1. Bamboo/Thatch /Grass/Reeds

3. Wood/Plywood
4. Concrete/Brick /Stone
5. Galvanised Iron/Aluminum/Other metal sheets
6. Asbestos cement sheets
7. Salvaged/Improvised materials
8. Other

(b) Roof Material

1. Bamboo/Thatch /Grass
2. Tiles
3. Wood/Plywood
4. Concrete / Brick/Stone
5. Galvanised Iron/Aluminum/Other metal sheets
6. Asbestos cement sheets
7. Plastic / Synthetic material sheets
8. Other

(c) Floor Material

1. Earth/Clay
2. Wood/Bamboo planks
3. Concrete/Brick/Stone
4. Polished stone
5. Parquet/Polished wood
6. Mosaic/Ceramic tiles
7. Other

Purpose of Building/Structure

1. Residence
2. Residence & shop
3. Residence & workshop
4. Residence & any other establishment (school, office, bank, pagoda etc.)

Head of Household

The head of household is a person who is recognized as such in the household. He or she is generally the person who bears the chief responsibility for the management of the household and takes decisions on behalf of the household. In the absence of de jure “Head”, the person on whom the responsibility of the managing the affairs of the household falls at the time of house-listing, is regarded as “Head”.

Number of Persons Usually Living in the Household

Casual visitors are excluded as they should be considered at their respective places of normal residence. Persons like household helpers, visitors or guests living and having their meals with the family are also considered as usual members of the household if they have been living with the household for six months or more, or if they have no other place of residence. Usual residents absent for six months or more are excluded from the household.

| 10. Son/daughter-in-law | 11. Brother/sister in-law | 12. Father/mother-in- law | | |
| 13. Other Relative | 14. Servant | 15. Non-Relative including boarder | | |

Sex

1. Male 2 Female

Age

The completed years as of March 3, 2013 recorded in full years discarding fractions of years and months.

Mother: Is mother (i.e. natural mother) of the person alive?

For a child aged 0-14

1. Alive 2. Dead 3. Don't know

Whether living with own mother

For a child aged 0-14

1. Yes 2. No

Marital Status

Refers to both legal and de facto statuses.

1. Never Married 2. Married 3. Widowed 4. Divorced 5. Separated

Age at first Marriage

Refers to the age of a person in completed years at the time of his/her first marriage of his/her lifetime.

Mother Tongue

Code	Mother Tongue	Code	Mother Tongue
01	Khmer	15	Krueng
02	Vietnamese	16	Lon
03	Chinese	17	Phnong
04	Lao	18	Proav
05	Thai	19	Tumpoon
06	French	20	Stieng
07	English	21	Ro Ong
08	Korean	22	Kraol
09	Japanese	23	Raadear

12	Kaaveat	26	Khogn
13	Klueng	27	Por
14	Kuoy	28	Suoy
		29	Any other mother tongue which has to be specified

The mother tongue refers to the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In case of infants and deaf mutes, the language usually spoken by the mother should be recorded. In case of doubts, the language mainly spoken in the household may be recorded.

4. Other

Birth Place

Refers to the place of usual residence of the person's mother at the time of registration of birth

1. Same village (village of enumeration)

Province and district of the village of birth: to be converted to a 4-digit code

Previous Residence

1. Same village (village of enumeration)

Province and district of the village from which the person have moved to the present residence most recently: to be converted to a 4-digit code

Duration of Stay

Refers to the duration of stay in the village of enumeration since coming from the last previous residence.

If a person is reported to have resided in the village (since coming from the last previous residence) for less than 1 year, Code 00 is given; if from 1 year to less than 2 years, Code 01 is given; if from 2 years to less than 3 years, Code 02 is given, and so on. For 98 years and over, Code 98 is given.

Reason for Migration

- | | |
|----------------------------|--|
| 01 Transfer of work place | 07 Natural calamities |
| 02 In search of employment | 08 Insecurity |
| 03 Education | 09 Repatriation or return after displacement |
| 04 Marriage | 10 Orphaned |
| 05 Family moved | 11 Visiting only |
| 06 Lost land/lost home | 12 Other |

Literacy in Khmer Language

Persons aged 7 and above were asked whether they can read and write with understanding in Khmer language.

1. Yes
2. No

Literacy in another language

- | | | | | |
|----------------------|---------------|------------|----------|---------|
| 1. No other language | 2. Vietnamese | 3. Chinese | 4. Lao | 5. Thai |
| 6. French | 7. English | 8. Cham | 9. Other | |

Full Time Education

Full-time education refers to education in an educational institution like Primary School, Secondary School, College, Training Center, etc.

(a) Have you ever attended School / Educational Institution?

1. Never
2. Now
3. Past

(b) Currently Attending Grade (for “2” of (a) above)

00. Pre-school/Kindergarten
01. Class 1 current or completed successively up to
12. Class 12 current or completed
15. Technical/vocational pre-secondary diploma/certificate course
16. Technical/vocational post-secondary diploma/certificate course
17. Undergraduate course
18. Post graduate course
19. Post master’s degree course
20. Other

(c) Highest Grade Completed (for “3” of (a) above)

00. Pre-school/Kindergarten
01. Class 1 current or completed successively up to
12. Class 12 current or completed
13. Lower Secondary Diploma Certificate
14. Upper Secondary Diploma Certificate/ Baccalaureate
15. Technical/vocational pre-secondary diploma/certificate
16. Technical/vocational post-secondary diploma/certificate
17. Graduate degree
18. Master’s degree
19. Ph.D. degree
20. Other diploma degree

(d) Main Subjects of Study for Codes 15 to 20 in (b) or (c) above

Physical/Mental Disability

1. In seeing
2. In speech
3. In hearing
4. In movement
5. Mental retardation
6. Mental illness
7. Any other
8. Multiple disabilities

Economic Characteristics of Population

The economically active population includes those who are employed and unemployed (including those available for work or seeking work), whereas the economically inactive population includes home makers; full time students; dependents; rent-receivers, retired people and other categories of income

recipients; and others who are neither employed nor unemployed and also do not come under any of the inactive categories mentioned. The reference period for this is the one year or 12 months before the survey night, that is from 4 March 2012 to 3 March 2013. This is sometimes referred to as “last year” or “last one year” hereafter.

Main Activity during Last Year

The Main Activity means the activity during 6 month (183 days) or more during the last one year (i.e. for the major part of the last year

Economically active

1. Employed
2. Unemployed (Employed any time before)
3. Unemployed (Never employed any time before)

Economically inactive

4. Home maker
5. Student
6. Dependent
7. Rent-receiver, Retired or other income recipient
8. Other

Employed

The “employed” comprise all persons who were in the following categories for 6 months (183 days) or more during the last one year.

- (a) Persons who were in paid employment (e.g. working in public or private organizations etc.).
- (b) Persons who during the reference period performed some work for wages, salaries, profits or family gains in cash or in kind.
- (c) Persons who did not do any work for pay or profit during the reference period although they had a job to which they might/would return (e.g. off season workers like farmers or fisherman), those on sick leave or leave without pay, and those who could not work due to a strike or a lockout in the organization they were working.
- (d) Persons who were self-employed (e.g. running a shop by himself/herself, selling eatables, practicing as doctors, lawyers etc.).

Work is defined as any economically productive activity that a person does for pay or profit in cash or in kind in any establishment, office, market, farm, or private house; or without pay on family farms or enterprises.

Unpaid activities such as voluntary social work and voluntary community support which are not contributing to family businesses are not classified as “work” for the purposes of this Survey.

Note that the following activities for own consumption are treated as work.

- (i) Production of primary products for own consumption such as growing of food grains or vegetables for own consumption.
- (ii) Collection of water and firewood for own consumption.
- (iii) The processing of primary commodities for own consumption by the producers of these items (such as drying own vegetables for later use).
- (iv) Production of fixed assets for own use (such as building a house or rice paddy dike).

Activities for own consumption other than the above are not treated as work (e.g. cooking one’s own food, washing one’s own clothes etc.). If a person is employed but at the same time does also attend to household chores or attend school etc., he/she is treated basically as employed.

Unemployed

“Unemployed” refers to those who were without work but were seeking work and available for work for six months (or 183 days) or over during the last year.

Note that homemakers, students and others mainly engaged in non-economic activities during the reference period and who satisfy the above criteria of unemployment should be regarded as unemployed.

Occupation

The kind of work the person did during the last 12 months, e.g. cashier, primary school teacher, nurse, blacksmith, watchman, manager, taxi driver etc. ISCO08 has been applied as the standard coding system of occupations in Cambodia for the 2008 Population Census onward, while it is ISCO88 that was applied to the 1998 Population Census. Note that there is a lot of discontinuity between the two classification systems.

Employment Status

1. Employer

2. Paid employee

3. Own-account worker

Refers to a person who operates his/her enterprise (e.g. farmer cultivating his own land, petty-trader, private doctor, and advocate who practices independently).

4. Unpaid family worker

Refers to a person who helps in running an economic enterprise operated by a member of his or her family without payment of wages or salaries (e.g. wife who helps her husband in farming, daughter who helps in hand-loom weaving).

5. Other

Industry

Refers to the economic activity of the establishment in which the person worked during the last one year. ISIC Rev. 4 with 21 sections has been used as the standard coding system of industries in Cambodia for GPCC 2008 onward, while it is ISIC Rev. 3.1 with 17 sections that was applied to GPCC 1998 Population Census.

Sector of Employment

This refers to the sector to which the establishment where the person worked belongs.

1. Government- includes State, provincial, district and commune government agencies and ministries.

2. State owned enterprise- includes financial institutions like the National Bank of Cambodia and all other State-controlled enterprises such as CAMINTEL, Cambodian Pharmaceutical Company, Electricite du Cambodge, etc.

3. Cambodian enterprise (Private) - includes enterprises or businesses owned and operated by private Cambodians

4. Foreign enterprise- includes enterprises or businesses owned and operated by foreign establishments or persons such as foreign controlled Banks (e.g. ANZ Royal, MayBank)

5. Non-profit institution- includes all Cambodian and foreign NGOs that provide goods and services for free or for a nominal fee, and that are not controlled and financed by government. Also included are trade unions, professional associations, political parties, charities, pagodas and other religious institutions, and aid organizations financed by voluntary transfers.

6. Household Sector- includes all businesses operating out of a household or private residential dwelling. Domestic workers are included here.

7. Embassy, International institution, and foreign aid development agency

8. Other

Secondary Economic Activity

For persons employed for the major part of the year preceding the census (i.e. the main activity is employed) this refers to a second job or activity which gave him/her additional income in cash or in kind. For others (i.e. unemployed or economically inactive for the major part of the year preceding the census date) it refers to some job or activity undertaken to earn income in cash or in kind. In other words it is their marginal work.

01. None

Farming (growing crops)

02. Unpaid Employment (Self-employed or employed in a family enterprise)

03. Paid Employment (Wage labourer)

Livestock farming

04. Unpaid Employment (Self-employed or employed in a family enterprise)

05. Paid Employment (Wage labourer)

Other Activities

06. Fishing

07. Other household -based production or services

08. Construction

09. Wholesale or retail trade

10. Transport

11. Other paid employment (e.g. teaching, cooking, child care, medical etc.)

Broad Sector of Industry

Industries are grouped in to the following broad sectors according to ISIC Rev.4:

Primary Sector: Section A (Agriculture, Forestry and Fisheries)

Secondary Sector: Section B (Mining and Quarrying), C (Manufacturing),

D (Electricity, Gas, Steam and Air conditioning Supply), E (Water supply; Sewerage, Waste Management and Remediation Activities), and F (Construction)

Tertiary Sector: Section G (Wholesale and Retail Trade; Repair of Motor Vehicles and Motorcycles), H (Transportation and Storage), I (Accommodation and Food Service Activities), J (Information and Communication), K (Financial and Insurance Activities), L (Real Estate Activities), M (Professional, Scientific and Technical Activities), N (Administrative and Support Service Activities), O (Public Administration and Defence; Compulsory Social Security), P (Education), Q (Human Health and Social Work Activities), R (Art, Entertainment and Recreation), S (Other Service Activities), T (Use Activities of Household as Employers), and U (Activities of Extraterritorial Organizations and Bodies)

(Form B: Household Questionnaire Part-3: Fertility Information of Females Aged 15 and over)

Age of woman at the time of birth of the first child.

A woman's age at the time of birth of her first child.

Number of Children Born

Children here refer to the woman's own offspring of whatever age and sex and not the children of a brother, sister or husband or other relative or non-relative or adopted ones who may be living with her.

Number of Children born alive

Number of children living

Number of children dead

Particulars of Births in the last 12 months

This question is aimed at collecting births in the 12 months prior to the date of enumeration to all

female aged 15 to 49 years.

Number of children born alive in the last 12 years.

Who assisted her during the delivery?

1. Doctor
2. Nurse
3. Midwife
4. Traditional Birth Attendant (TBA)
5. Other
6. None

Did she get the birth of this child registered with the civil authority in the Commune?

1. Yes
2. No

(Form B: Household Questionnaire Part-4: Death in Household)

Total number of deaths in the last 12 months

This relates to death of any member of household during the last 12 months in the same household. To determine to which household the diseased household member belongs in a case where he/she stayed away from his/her household to another for treatment etc., six months or more may be treated as the determinant period.

Age at death

Age at death in total years: for less than 1 year, Code 00 is given; if from 1 year to less than 2 years, Code 01 is given; if from 2 years to less than 3 years, Code 02 is given, and so on. For 98 years and over, Code 98 is given.

Cause of death

(Illness)

- | | | | | | | | |
|----|------------------------|----|-----------------------|----|---------------|----|---------------|
| 01 | Fever | 02 | Diarrhoea | 03 | Tuberculosis | 04 | Heart disease |
| 05 | Dengue fever | 06 | Malaria | 07 | Tetanus | 08 | HIV/AIDS |
| 09 | Pregnancy complication | 10 | Delivery complication | 11 | Other illness | | |

(Accident)

- | | | | | | | | |
|----|-----------|----|---------------|----|----------|----|----------------|
| 12 | Land mine | 13 | Road accident | 14 | Drowning | 15 | Other accident |
|----|-----------|----|---------------|----|----------|----|----------------|

(Not known)

- 16 Don't know

Has the death been registered with the civil authority in the Commune?

1. Yes
2. No

Maternal deaths among females aged 15-49

Whether death took place or not for a woman when she was pregnant or during her delivery time or within 42 days after she gave birth to a child.

1. Yes
2. No.

Place of death

1. Hospital
2. Health Center
3. Home
4. Other

Person who attended on the woman before her death.

1. Doctor
2. Nurse
3. Midwife
4. Traditional Birth Attendant (TBA)
5. Other
6. None

(Form B: : Household Questionnaire Part-5: Housing Conditions and Facilities)

Tenure status of dwelling

1. Owner occupied, if the household has a dwelling belonging to either the head or a member of the household for which no rent is being paid. It does not matter whether loans from financial institutions etc. have not been paid back yet.
2. Rent, if the household has been paying rent for its accommodation.
3. Not owner, but rent free, if the household has the accommodations free of charge although the house or building is not the property of the head or any member of this household.
4. Other

Main Source of Light

The type of lighting used in the household most of the time

1. City power
2. Generator
3. Both city power and generator
4. Kerosene
5. Candle
6. Battery
7. Other

Main Cooking Fuel

The kind of fuel used by the household most of the time for cooking.

1. Firewood
2. Charcoal
3. Kerosene
4. Liquefied Petroleum Gas (LPG)
5. Electricity
6. None
7. Other

Toilet Facility within Premises

1. Not available
2. Connected to sewerage
3. Septic tank
4. Pit latrine
5. Other type of toilet

Main Source of Drinking Water Supply

The type of the source of drinking water supply used most of the time.

1. Piped water
This refers to supply of drinking water by Municipality or any local body by piped connection. Even though the household may pay to the authorities for water supplied, it should not be treated as water bought, but considered as piped water.
2. Tube/Pipe well
3. Protected dug well
4. Unprotected dug well
5. Rain: Including rain water stored and used

6. Spring, river, stream, lake/pond
Even if arrangements are made to pump water to the premises through pipes using motor pumps, it should not be treated as piped water.
7. Bought
Including water bought by any means like water provided by vendors, water sold in bottles or containers and water from tanker trucks.
8. Other

Location of drinking water source

1. Within the premises
2. Near the premises: Referring to a walking distance of about five minutes.
3. Away: Referring to more than the above distance.

Number of rooms occupied by the household

A room should have four walls with a roof and a doorway. It should be wide and long enough for a person to sleep in. Kitchens, store rooms, bathrooms and toilets are not included as they are not normally usable for living or sleeping. A room which is shared by more than one household will not be counted for any of them.

Availability of separate kitchen within the premises

A kitchen is defined as a space that conforms to the criteria for a room mentioned above in all respects and is equipped for the preparations of the principal meals of the day and intended primarily for the household.

Equipment owned by the household

The following 15 items of utility equipment are asked: Radio/Transistor, Television, Telephone (Desk phone), Cell phone, Personal computer, Bicycle, Motorcycle, Refrigerator*, Washing machine*, Air-conditioner*, Fan*, Car/Van, Boat, Big tractor, and Hand tractor (Koyao).

* not asked in GPCC 2008

Access to the Internet at Home, outside Home and both at home and outside

The current status of the household whether one or more members of the household have access to the Internet at home, outside home and both at home and outside, respectively.

Urban/Rural

Urban areas are designated based on the criteria adopted in the “Reclassification of Urban Areas in Cambodia” (February 2011), which adopted the following criteria for application to every commune so as to determine it as urban:

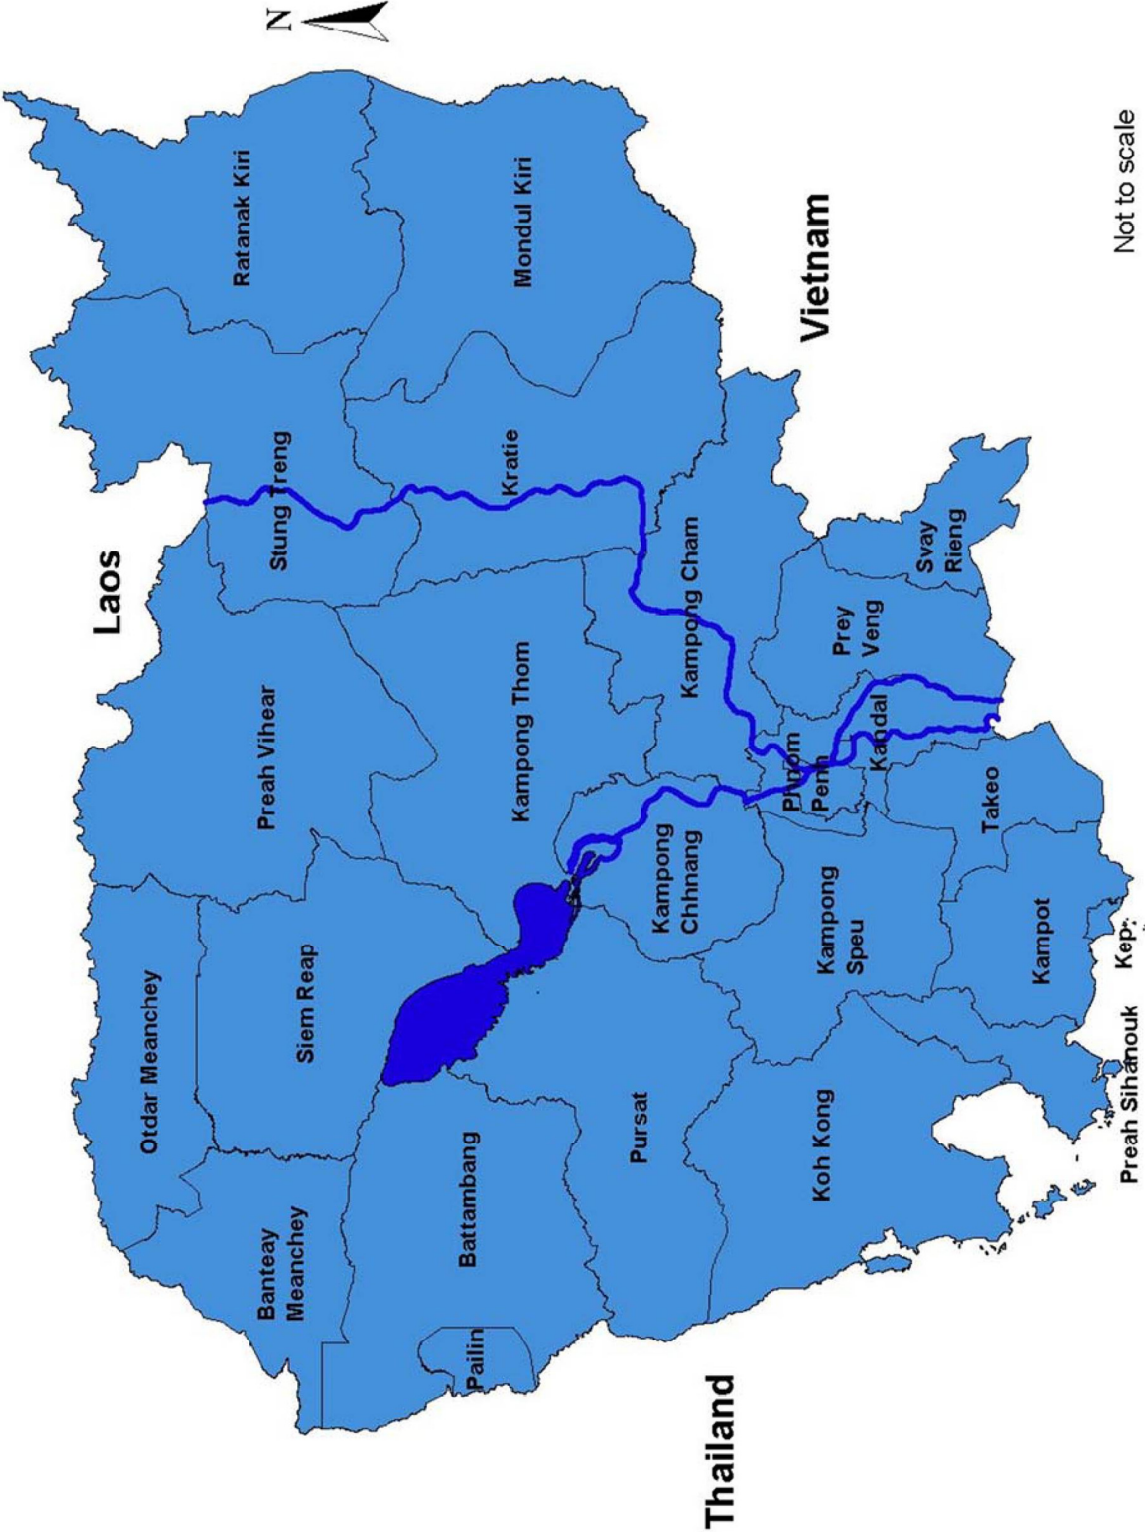

- (a) Population density exceeding 200 per km²
- (b) Percentage of persons (both sexes) employed in agriculture below 50%*
- (c) Total population of the commune should exceed 2,000.

* In the preceding classification of urban areas adopted in November 2004, criterion (b) reads as follows:

Percentage of male employment in agriculture below 50%

Note: Six districts located at the east side of the Mekong River were separated from Kampong Cham Province to form a new province called Tboung Khmum Province as the 25th province of Cambodia in December 2013. The capital city of the new province is Krong Suon (Suon City). However, CIPS 2013 was not designed to produce statistics for the new province separately from those for Kampong Cham Province, as the survey was conducted in March 2013.

APPENDICES

Appendix 1 Sampling Design for CIPS 2013

(Sampling frame)

The sampling frame used for 2013 CIPS was the complete list of all EAs of the 2008 General Population Census of Cambodia. The list was updated to reflect administrative changes since the last census up to September 2011. The main administrative change was the relocation of the boundary between Kandal and Phnom Penh provinces with the result that 20 communes were shifted from Kandal to Phnom Penh. Taking into account all changes, some geographic areas were recoded for construction of a revised and updated sampling frame for use in the two-stage sample design for CIPS 2013.

(Stratification)

In order to obtain reliable estimates for each province, the sampling frame was stratified by province. Within a province a further stratification by urban and rural was done.

(Sample size and sample allocation)

With a margin of error of 2.8% at a confidence level of 95%, sampling of households was done assuming a simple random sampling design. An approximately almost equal number of households, about 1,200 households were allocated to each province as shown in the table below.

(Sampling design)

The sample design was a stratified two-stage sampling design with Enumeration Areas (EAs) as Primary Sampling Units (PSUs), and households as Secondary Sampling Units (SSUs).

Number of Sample Households for Cambodia and provinces

Province	Total households	Sample households	Sample PSUs	C. V. for total population
Cambodia	2,817,637	28,650	955	0.011
Banteay Meanchey	144,658	1,230	41	0.053
Battambang	209,702	1,230	41	0.038
Kampong Cham	368,114	1,230	41	0.038
Kampong Chhnang	100,801	1,200	40	0.054
Kampong Speu	149,270	1,230	41	0.047
Kampong Thom	133,878	1,200	40	0.057
Kampot	129,646	1,200	40	0.050
Kandal	255,029	1,230	41	0.034
Koh Kong	24,166	1,170	39	0.052
Kratie	65,323	1,200	40	0.041
Mondul Kiri	12,270	1,110	37	0.060
Phnom Penh	250,597	1,230	41	0.040
Preah Vihear	33,115	1,170	39	0.046
Prey Veng	226,312	1,230	41	0.030
Pursat	83,412	1,200	40	0.042
Ratanak Kiri	27,485	1,170	39	0.086
Siem Reap	179,754	1,230	41	0.071
Preah Sihanouk	44,656	1,200	40	0.077
Stung Treng	20,922	1,170	39	0.058
Svay Rieng	114,758	1,200	40	0.037
Takeo	183,742	1,230	41	0.032
Otdar Meanchey	38,398	1,200	40	0.049
Kep	7,193	1,050	35	0.022
Pailin	14,436	1,140	38	0.037

Coefficient of variation is for the total population calculated using CIPS 2013 actual data.

For more details, see "Cambodia Inter-censal Population Survey 2013 Final Report".

Appendix 4 List of Priority Tables of CIPS 2013 Results

The List of Priority Tables for CIPS is drawn from the corresponding List of 2008 Census with some revisions, additions and deletions in view of the various changes in the questionnaires.

Table No. Title

(i) A Series. General Population Tables	
1. A1	Population by Single Year of Age and Sex.
2. A2	Population by Marital Status, 5-year Age Group and Sex.
3. A3	Population by Mother Tongue, 5-year Age Group and Sex.
4. A3A	Population by Mother Tongue (Minority Languages), 5-year Age Group and Sex.
5. A4	Population by Religion, 5-year Age Group and Sex.
6. A5	Population by Relationship to Head of Household, 5-year Age Group and Sex.
7. A6	Population by Place of Enumeration, Place of Birth and Sex.
(ii) B Series. Literacy and Education Tables	
8. B1-1	Population aged 7 and over by Literacy in any language, Level of Education, Usual Activity Status (Total), Age Group and Sex.
9. B1-2	Population aged 7 and over by Literacy in any language, Level of Education, Usual Activity Status (Employed), Age Group and Sex.
10. B1-3	Population aged 7 and over by Literacy in any language, Level of Education, Usual Activity Status (Unemployed), Age Group and Sex.
11. B1-4	Population aged 7 and over by Literacy in any language, Level of Education, Usual Activity Status (Not Economically Active), Age Group and Sex.
12. B1A	Population aged 7 and over by Language Literacy, Age Group and Sex.
13. B2	Population aged 5 and over Attending School/Educational Institution by Literacy, Level of Education, Age Group and Sex.
14. B3	Population aged 7 and over by Level of Education, Main Subject of Study and Sex

(iii) C Series. Economic Tables

- 15. C1 Population by Main Activity Status, 5-year Age Group and Sex.
- 16. C2 Employed Persons aged 5 and over by Employment Status, 5-year Age Group and Sex.
- 17. C3 Employed Persons aged 5 and over by Sector of Employment, 5-year Age Group and Sex.
- 18. C4 Unemployed Persons aged 5 and over by Employment Status, 5-year Age Group and Sex.
- 19. C5-1 Economically Active Population (Total) aged 5 and over by Secondary Economic Activity, 5-year Age Group and Sex.
- 20. C5-2 Economically Active Population (Employed) aged 5 and over by Secondary Economic Activity, 5-year Age Group and Sex.
- 21. C5-3 Economically Active Population (Unemployed) aged 5 and over by Secondary Economic Activity, 5-year Age Group and Sex.
- 22. C6-1 Economically Inactive Population (Total) aged 5 and over by Secondary Economic Activity, 5-year Age Group and Sex.
- 23. C6-2 Economically Inactive Population (Home Maker) aged 5 and over by Secondary Economic Activity, 5-year Age Group and Sex.
- 24. C6-3 Economically Inactive Population (Student) aged 5 and over by Secondary Economic Activity, 5-year Age Group and Sex.
- 25. C6-4 Economically Inactive Population (Dependent) aged 5 and over by Secondary Economic Activity, 5-year Age Group and Sex.
- 26. C6-5 Economically Inactive Population (Rent or income receiver) aged 5 and over by Secondary Economic Activity, 5-year Age Group and Sex.
- 27. C6-6 Economically Inactive Population (Other) aged 5 and over by Secondary Economic Activity, 5-year Age Group and Sex.
- 28. C7 Economically Active Population aged 5 and over by Industrial Sections, Major Group of Occupation and Sex.
- 29. C8 Economically Inactive Population aged 5 and over by Main Activity Status, 5-year Age Group and Sex.
- 30. C9 Employed Population aged 5 and over by Industrial Sections, 5-year Age Group and Sex.
- 31. C10 Employed Population aged 5 and over by Major Group of Occupation, 5-year Age Group and Sex.
- 32. C11 Employed Population aged 5 and over by Employment Status, Industrial Sections and Sex.
- 33. C12 Employed Population aged 5 and over by Employment Status, Major Group of Occupation and Sex.
- 34. C13 Employed Population aged 5 and over by Literacy in any Language, Level of Education, Major Group of Occupation and Sex.
- 35. C14 Employed Females aged 5 and over by Industrial Sections and Marital Status.
- 36. C15 Employed Females aged 5 and over by Major Group of Occupation and Marital Status.
- 37. C16 Employed Population aged 5 to 20 by School Attendance, Single Year of Age and Sex.

(iv) D Series. Migration Tables
38. D1 Migrants by Place of Last Residence, Duration of Residence in Place of Enumeration and Sex.
39. D2-1 Migrants (Entire Duration) from other Provinces by Province of Enumeration, Province of Previous Residence and Sex.
40. D2-2 Migrants (Less than 1 Year) from other Provinces by Province of Enumeration, Province of Previous Residence and Sex.
41. D2-3 Migrants (Less than 5 Years) from other Provinces by Province of Enumeration, Province of Previous Residence and Sex.
42. D3-1 Migrants by Place of Last Residence, Reason for Migration, Duration of Residence (All Durations) and Sex.
43. D3-2 Migrants by Place of Last Residence, Reason for Migration, Duration of Residence (Less than 1 year) and Sex.
44. D3-3 Migrants by Place of Last Residence, Reason for Migration, Duration of Residence (1 To 4 years) and Sex.
45. D3-4 Migrants by Place of Last Residence, Reason for Migration, Duration of Residence (5 To 9 years) and Sex.
46. D3-5 Migrants by Place of Last Residence, Reason for Migration, Duration of Residence (10 years and above) and Sex.
47. D4 Migrants Economically Active Population aged 5 and over by Place of Last Residence, Industrial Sections and Sex.
48. D5 Migrants Economically Active Population aged 5 and over by Place of Last Residence, Major Group of Occupation and Sex.
49. D6-1 Migrants aged 7 and over (All Migrants) by Educational Level, Usual Activity Status, 5-year Age Group and Sex.
50. D6-2 Migrants aged 7 and over (Employed Migrants) by Educational Level, Usual Activity Status, 5-year Age Group and Sex.
51. D6-3 Migrants aged 7 and over (Unemployed Migrants) by Educational Level, Usual Activity Status, 5-year Age Group and Sex.
52. D6-4 Migrants aged 7 and over (Unemployed Migrants(never employed before) by Educational Level, Usual Activity Status, 5-year Age Group and Sex.
53. D6-5 Migrants aged 7 and over (Migrants not economically active) by Educational Level, Usual Activity Status, 5-year Age Group and Sex.
54. D7 Migrants in the previous five years by 5-year Age Group and Sex.
(v) E Series. Disability Tables
55. E1 Physically/Mentally Disabled Persons by Category of Disability, 5-year Age Group and Sex.
56. E2 Physically/Mentally Disabled Persons by Category of Disability, Marital Status and Sex.
57. E3 Physically/Mentally Disabled Persons by Literacy in any language, Level of Education, 5-year Age Group and Sex.
58. E3A Physically/Mentally Disabled Persons by Category of Disability, Literacy in any Language, Level of Education and Sex.
59. E4 Physically/Mentally Disabled Persons by Main Activity Status, 5-year Age Group and Sex.

(vi) F Series. Fertility Tables
60. F1 Females aged 15 to 49 bearing children during last year by 5-year Age Group, Educational level and Births during last year by Birth order.
61. F2 Females aged 15 to 49 bearing children during last year by 5-year Age Group, Usual Activity Status and Births during last year by Birth order.
62. F3 Females aged 15 and over by Parity, Total Children Ever Born, 5-year Age Group and Educational Level.
63. F4 Females aged 15 and over by Parity, Total Children Ever Born, 5-year Age Group and Usual Activity Status.
64. F5 Females aged 15 and over by Number of Surviving Children, 5-year Age Group and Educational level.
65. F6 Females aged 15 and over by Number of Surviving Children, 5-year Age Group and Usual Activity Status.
66. F7 Females aged 15 to 49 bearing children during last year by 5-year Age Group and Type of Assistance during Delivery.
67. F8 Registration of Birth in the last year by Educational Level of Mother.
(vii) G Series. Mortality Tables
68. G1 Population, Number of Deaths in Households in the last year by broad Age Group and Sex.
69. G2 Deaths in Households in the last year by Cause of Death, broad Age Group and Sex.
70. G3 Maternal Deaths by Type of Assistance, Place of Death and 5-year Age Group.
71. G4 Population and Deaths in Households in the last Year by Death Registration, broad Age Group and Sex.
(viii) H Series. Household and Housing Amenity Tables
72. H1 Buildings/Structures with Households by Type of Use.
73. H2 Buildings/Structures (Residential and Partly Residential) by Predominant material of Roof, Wall and Floor.
74. H3 Households by Tenure Status of Dwelling, Household Size and Number of Rooms.
75. H4 Households by Size of Households, Number of Economically Active Members and Sex of Household's Head.
76. H5 Number of Households by Usual Activity Status, 5-year Age Group and Sex of Household's Head.
77. H6 Households by Main source of Light used and Household Size.
78. H7 Households by Type of Fuel used for Cooking and Household Size.

79. H8 Households by Main source of Drinking Water, Location of Source and Household Size.
80. H9 Households by Tenure Status of Dwelling and Toilet Facility.
81. H10 Households and Population by Tenure Status of Dwelling, Availability of Electric Power and Toilet Facility.
82. H11 Households by Source of Drinking Water, Availability of Electric Power and Toilet Facility.
83. H12 Households by Type and Number of Assets owned.
84. H13 Households by Household Size and Access to Internet.
85. H14 Households by Household Size and Kitchen Separated.

Appendix 5 List of Publications of CIPS 2013 Results

No.	Title	No. of Volumes	Planned Date of Publication
Preliminary Results			
1	National Report (Provisional Report)	1	August 2013
2	Wall Maps/Charts		August 2013
Final Results			
1	National Report (Final Report)	1	November 2013
2	Provincial Report	24	2014
Analytical Reports			
1	Estimates of Fertility and Mortality	1	March 2014
2	Spatial Distribution and Growth of Population	1	December 2013
3	Sex and Age Structure	1	December 2013
4	Nuptiality	1	May 2014
5	Disability	1	December 2013
6	Migration	1	2014
7	Literacy and Educational Attainment	1	March 2014
8	Economic Activity and Employment	1	May 2014
9	Housing and Household Amenities	1	March 2014
