

ANNEX I

Project Design Matrix (PDM)

Project Title: Improving Official Statistics in Cambodia

Implementing Agency: National Institute of Statistics(the NIS), Ministry of Planning

Target Group: Statistical Officers in NIS, provincial statistical offices, and line ministries

Narrative Summary	Objectively Verifiable Indicators	Means of Verification	Important Assumption
<p align="center">Overall Goal</p> <p>Census and statistical surveys will be periodically and precisely implemented, and highly reliable statistical data will be provided timely to policy makers, administrators, researchers, NGO's and other relevant users.</p>	<p>1 Number and periodicity of statistical surveys conducted by the NIS 2 Number and periodicity of statistical documents drawn up by the NIS 3 Number and sales quantity of statistical publications 4 Number of access and periodicity of update to the NIS website</p>		
<p align="center">Project Purpose</p> <p>Statistical capacity of the NIS staff, provincial statistical staff, and the statistical staff of main line ministries will be improved.</p>	<p>1 Number of capable staff for statistics in the NIS, provincial statistical offices, and statistical units of line ministries. 2 Number of capable staff for statistical softwares and personal computer in the NIS, provincial statistical offices, and statistical units of line ministries</p>		
<p align="center">OUTPUTS</p> <p>1 Knowledge and capacity on basic statistics of the NIS staff, the provincial statistical staff, and the statistical staff of the main line ministries are improved.</p> <p>2 Capacity of the NIS staff for the planning of the statistical surveys is improved.</p> <p>3 Data processing skill of the NIS staff on the statistical surveys is improved</p> <p>4 The NIS staff acquires the methods of the analysis of the statistical surveys.</p> <p>5 Dissemination of survey results is increased and the results of statistical surveys are utilized by the main line ministries.</p> <p>6 The results of the economic statistical surveys are evaluated properly and NIS' capacity on establishment surveys is improved.</p> <p>7 Statistical capacities of the major provincial statistical staff are improved.</p>	<p>1-1 Number of training courses on basic statistics and number of trainees 1-2 Level of understanding of the trainees on basic statistics</p> <p>2-1 Number of training courses on planning of statistical surveys and number of trainees 2-2 Level of understanding of the trainees on planning of statistical surveys</p> <p>3-1 Number of training courses on data processing of statistical surveys and number of trainees 3-2 Level of understanding of the trainees on data processing of statistical surveys</p> <p>4-1 Number of training courses on analysis of statistical surveys and number of trainees 4-2 Level of understanding of the trainees on analysis of statistical surveys</p> <p>5-1 Number of training courses on dissemination of survey results and on utilization of the survey results and number of trainees 5-2 Level of understanding of the trainees on dissemination of survey results and on utilization of the survey results 5-3 Number of disseminated data of NIS statistical surveys 5-4 Number of results of NIS statistical surveys utilized by main line ministries</p> <p>6-1 Number of training courses on evaluation of results of economic statistical surveys and on establishment surveys and number of trainees 6-2 Level of understanding of the trainees on evaluation of results of economic statistical surveys and on establishment surveys</p> <p>7-1 Number of training courses on regional statistics and number of trainees 7-2 Level of understanding of the trainees on regional statistics</p>		

Activities	INPUTS		
<p>1 [Basic statistics] 1-1 Trainings on basic statistics to the NIS staff, the provincial statistical staff, and statistical staff of the main line ministries*</p> <p>2 [Planning of statistical surveys] 2-1 Trainings on the planning of statistical surveys to the NIS staff 2-2 Trainings on the design of the questionnaires of statistical surveys to the NIS staff 2-3 Coordination with the line ministries and the donors on the population census</p> <p>3 [Data processing] 3-1 Trainings on the data processing for statistical surveys to the NIS staff</p> <p>4 [Statistical analysis] 4-1 Development of systems for the analysis of the results of statistical surveys in the NIS 4-2 Trainings on the analysis of the results statistical surveys to the NIS staff</p> <p>5 [Dissemination of statistical data] 5-1 Trainings on the editing of publication, CD, and website, to the NIS staff 5-2 Trainings on the utilization of the results of the statistical surveys to the statistical staff of the main line ministries*</p> <p>6 [Improvement of economics statistics] 6-1 Trainings on the evaluation of the existing results of the economic statistical surveys to the NIS staff 6-2 Trainings on the establishment surveys to the NIS staff <u>including on-the-job trainings of the establishment surveys.</u></p> <p>7 [Capacity development of provincial statistical offices] 7-1 Selection of model provinces 7-2 Trainings on the regional statistics for the staff of the model provincial statistical staff</p> <p><small>* <u>The main line ministries for the trainings will be selected after the commencement of the Project.</u></small></p>	Cambodia Side	Japanese Side	
	<p>Counterpart personnel</p> <p>Office space and necessary furnitures for Japanese experts</p> <p>Running cost for the project activities</p> <p>Approval for the free access to the statistical data necessary for the project activities (population census data, economic statistics data etc.)</p>	<p>* Experts: Statistics/Chief advisor, Statistics/Training planning, Project coordinator, Statistical training, Data processing, Statistical analysis, Dissemination of statistical data, Economic statistics,etc</p>	
		<p>* Trainings in Japan: Statistics, Demographic statistics, Economic statistics</p> <p>* Provision of equipment: Personal computers, LAN server and peripherals (as necessary), Software, <u>IT tables and chairs</u>, CD recorder, DVD recorder, Printers, Audio-visual equipment for training, Photocopier, Vehicle, <u>Air conditioner, Generator</u></p> <p>* Training in Cambodia: Basic Statistics, Planning of statistical surveys, Data processing, Statistical analysis, Dissemination of statistical data, Utilization of the results of statistical surveys, Evaluation of economic statistical surveys, Establishment surveys, Regional statistics</p>	<p>Pre-Conditions Policy makers will recognize the importance of statistical information</p>
