Notes on Use

- 1. These statistical tables are based on the revised tabulation, and may differ from the results of the preliminary tabulation published in May 2017.
- 2. The survey was conducted on all establishments and enterprises in Japan excluding the following establishments and enterprises:
 - 1) Establishments of national and local public entities.
 - 2) Establishments of individual proprietorships that fall under Division A, "agriculture and forestry" of the Japan Standard Industrial Classification.
 - 3) Establishments of individual proprietorships that fall under Division B, "fisheries" of the Japan Standard Industrial Classification.
 - 4) Establishments that fall under Group 792, "domestic services" in Division N, "living-related and personal services and amusement services" of the Japan Standard Industrial Classification.
 - 5) Establishments that fall under Major Group 96, "foreign governments and international agencies in Japan" in Division R, "services, n.e.c." of the Japan Standard Industrial Classification.
- 3. Financial matters, including the amount of sales (income) and expenses, are the values for the year 2015, whereas matters other than financial matters, including legal organizations and the number of persons engaged, are the values as of June 1, 2016.
- 4. The amounts of sales (income) per establishment were omitted for the following industries:

"Construction," "electricity, gas, heat supply and water," "communication," "broadcasting," "video picture, sound information, character information production and distribution," "transport and postal services," "finance and insurance," "school education," "postal services," "political, business and cultural organizations," and "religion."

- 5. The amounts of added value by establishment in all industries were counted by assigning the amount of added value obtained for each enterprise to each subordinate establishment in the proportion of the number of persons working at the location.
- 6. Some matters, including the amount of sales (income), are counted among establishments (enterprises, etc.) for which figures for the required items were available.
- 7. In principle, regarding financial matters, values for the amount of sales (income) including the consumption tax were obtained. However, some replied values that did not include the consumption tax were included in the tabulation after being adjusted for the

inclusion of the consumption tax based on the "Guidelines on the Treatment of the Consumption Tax in Relation to the Tabulation of the Amount of Sales, etc. in Statistical Surveys" (agreed upon by the directors of the divisions with the main jurisdiction over statistical affairs at ministries and agencies on May 19, 2015).

< Guidelines >

http://www.soumu.go.jp/main_content/000365494.pdf (Japanese Only)

- 8. Missing values and conflicting replies in questionnaires were closely examined and then corrected based on data including the 2012 Economic Census for Business Activity, the 2014 Economic Census for Business Frame and published information from presenters and were then tabulated in the results table.
 - < Handling of missing values, etc. > https://www.stat.go.jp/data/e-census/2016/kekka/pdf/hotei.pdf (Japanese Only)
- 9. The sum of individual amounts and total amounts in each matter may differ due to rounding to the nearest unit. The ratios are rounded to one decimal place. The number of persons engaged per establishment, the number of establishments and persons engaged per square kilometer, and the number of persons working at the location are rounded to one decimal place.
- 10. In the results table by industrial classification, the establishments (enterprises, etc.) which did not enough for coding of the industrial classification due to inadequate replies in questionnaires were included in the superordinate industrial classification and tabulated, so the data of superordinate industrial classification might be different from the sum of the breakdown of it.
- 11. Some of the data are shown as "-" because they lack relevant numbers and have a 0 denominator, making calculation impossible.
- 12. Some of the data are shown as "..." because they were outside of the scope of this survey.
- 13. "X" indicates figures kept confidential in cases where publication of the tabulated results could lead to secrets of individual reporters being leaked because there are only one or two target establishments (enterprises, etc.). Even if the figures are related to more than three target establishments (enterprises, etc.), they are shown as "X" in cases where figures of one or two target establishments (enterprises, etc.) become clear by subtracting them from the total figures.

14. "Otherwise classified" items as referred to in "except otherwise classified" include mainly the following business activities, etc.

| | Industrial Classification | , -, - | "Otherwise classified" items |
|------|--|--------|--|
| Code | | Code | Products, business activities, etc. |
| 18 | Manufacture of plastic products, except | 13 | Furniture and fixtures |
