

Special tabulation related to Unpaid work

Outline

1. Purpose

This special tabulation conducted to compensate the results of the Questionnaire B (main tabulation) for followings, which was newly introduced on “Survey on time use and leisure activities 2001”.

① The comprehension of quantity of time on unpaid work.

In the main tabulation, 62 classified kinds of activities were introduced which details 20 kinds of activities in Questionnaire A.

In the individual data , 70 classified kinds of activities were introduced. It is in order to help comprehend the unpaid work.

“Classification of Activities for Time-Use Statistics”(ICATUS) was indicated by United Nations Statistics Division in 2003. We tabulated results related to unpaid work based on this idea.

② Since 2003, the statistics have been gathered from the results of “Harmonization of Time Use survey”(HETUS) and with the comparable division of activities.

③ The matter of 2006 survey is referred to examined data.

2. Text of tabulation

Average time spent for all persons, for participants and participation rate were tabulated.

In addition, the presumed population and number of tabulated were tabulated.

3. Method of tabulation

It was tabulated under “Survey on time use and leisure activities 2001”, Questionnaire B in the individual data.

The tabulation was entrusted to National Statistics Center.
