| | | | | 1 Worker 2 No occupation 3 Other | | |

- This is fundamental statistics survey implemented by the government based on the Statistics Act. As all possible measures are taken to protect secrecy, please answer truthfully.
- This questionnaire asks not about family income but about the private income and expenditure of each household member over 18 years of age.

Statistics Japan

I

Pocket money or income

Please choose applicable answers about your pocket money or income.

Question

Do you have pocket money or income?
Circle the corresponding number.

1

Have pocket money from the household.

2

Using other than carry-over to household expenditure

3

Have income without carrying-over to household expenditure.

4

Have pocket money not distinguishing from household expenditure.

Note: If there are multiple applicable items, choose one main case and circle its number.

[1] refers to persons who regularly or irregularly receive private income (pocket money) from the household (the household head or family budget manager).

[2] refers to persons who have an income from a job, etc., contribute a certain amount to the household, and use the remaining part as private income (pocket money).

[3] refers to persons who have an income from a job, etc., but do not contribute to the household budget, and use all the money as private income (pocket money)

[4] refers to persons who make no distinction between housekeeping money and private income (pocket money).
