

Improvement of Dutch Statistical Business Register

2016 Wiesbaden Group Meeting in
Tokyo. Session 2

Statistics
Netherlands

Starting situation (1)

- Dutch SBR contains
 - Enterprise Groups (link to foreign parent)
 - Enterprises
 - Local Units
 - Legal units and local legal units
- Sources
 - Chamber of Commerce (CoC)
 - Tax Authority (TA)
 - Profilers

Starting situation (2)

- Users
 - All Dutch SN statistics on economic developments
- Roles of Dutch SBR (most important)
 - SBR Live Register
 - SBR Register Snapshot and Frozen Frame
 - SBR Survey Frame
 - SBR Information Source
- Other info
 - Monthly frozen frames
 - Available to all users
 - Macro quality validation

Starting situation (3)

- Dutch Central Bank responsible for most of data collection on financial units. Integrated in NA
- Different units used by both organisations
- Risk of integration problems in NA

- SBR has undercoverage. Due to restrictions of CoC register

- Improvement needed in SBR for
 - Government units
 - Financial units
 - Globalisation/regionalisation
 - Beneficial for employment statistics

CAESAR project (1)

Project goals

- Good coverage of the financial sector
- Good coverage of the public sector
- Better coverage of employers
- Introduction of globalisation aspect
- Improved regional information

CAESAR project (2)

Important aspects of the CAESAR project

- Holistic approach
- Close cross divisional/organisational collaboration
- Using SBR satellites
- Also using chain management in the project
- Research Control Board
- SCRUM approach (benefit for the customer)

CAESAR project (2)

Results:

- Introduction of institutional sector classification on level of Enterprise in SBR
- Bottom up derivation of institutional sector classification
- Second administrative source for legal units
- Better statistical coordination
- Better description of the financial and public sector in SBR and therefore in NA

Summary / points for discussion

- Working together and sharing a shared statistical population between Statistical office and Central Bank
- Link between statistical units and institutional units
- Integration of global and regional information in SBR
- Looking for the overall benefit for the whole
