Basic Data Programme in Denmark
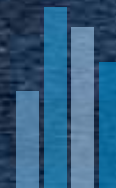

Presented on Wiesbaden Group meeting 2016

Steen Eiberg Jorgensen
SEJ@DST.dk

STATISTICS DENMARK

Why – Business case

Digital solutions have to be easy to use, fast and ensure good quality data

- User friendly digital public sector
- More efficient use of data and faster case management
- Improved and more coherent welfare system

Digital solutions have to provide the foundation for economic growth

- Improved commercial conditions
- Public data driving economic growth
- Efficient management of supplies

Trust and security for all are central to the digital solutions

- The public sector
- Solid digital foundation
- Digitization for all

Introduction – How it was

Registration is natural

- Personal ID, since 1965 central
- Company Registration, since 1967 central
- Building registration, still local but in one register
- Education, from the 1970's
- Health, from the 1970's
- Income
- …

## Sharing information is natural

- SD has free access to all data by law
- Sharing information, but also duplication of almost same data

Network of Basic Registrations

- Basic Data Programme

BDR
The Cadastre
Property Owners
Property location
Property Assestment

Central Business Register (ABR)

Fast Ejendom GEODATA

Persondata PSD

Firmadata ESR

Andre Geodata

Civil Registration

Maps	Buildings
Land Use	Trafic
