

Report of Training in Indonesia 2008

To: Representative of JICA Cambodia Office.

From: Mich Kanthul, Director,

Economic Statistics Department, NIS, MoP, Cambodia.

Name of Training: Manufacturing Industry Directory.

Duration of Training: September 15 – 19, 2008.

On behalf of the National Institute of Statistics, especially myself, I would like to express my deep thanks and extend my sincere appreciation to JICA in Cambodia and yourself for having good arrangement of making a study tour to BPS, Indonesia and giving us an opportunity to see and study on preparing directory and conducting survey of medium and large establishment which has been done by BPS.

From my point of views, I think that such a kind study tour is very and very important for the developing countries and for the people like us to learn about the step how to do:

- An overview of BPS-Statistics Indonesia
- An overview of compiling directory and conducting of Medium and Large Manufacturing Establishment
- Explanation of Annual Survey of Medium and Large Manufacturing Establishment
- Explanation of Monthly Survey of Medium and Large Manufacturing Establishment
- Explanation of System and Updating of Manufacturing Industry Directory
- Explanation of use and Dissemination of Manufacturing Industry Directory
- Visited fieldwork enumeration of monthly survey of Large and Medium Manufacturing Industry

In conclusion, the study visit on how to compile directory and to conduct annual and monthly survey of large and medium on manufacturing establishment in Indonesia was extremely successful and fruitful. I do strongly hope that after going and seeing this important event of BPS in Jakarta, especially after making discussions and sharing experiences to each other, is to give us an benefit in understanding step by step on the way how to conduct the above mentioned of Cambodia in future by our own self.
