

Annex Table 7 Number of Normal Households by Household Size and Number of Usually Economically Active Members: 1998 and 2008
(Continued)

</

Note: "Usually Economically Active Members" is shown as "working members".

Average number of household members (household size) and average number of working member are computed as follows;

Average number of working member= $(\sum (\text{number of households (i)} \times \text{number of working members (i)}) / \text{total household}$.

Here the number of working member size i = 1 to 7, "7 and over" is regarded as 7.

Annex Table 8 Number of Normal Households by Household Size and Number of Usually Economically Active Members
